Appointment of Mrs. B. Perriton as 3rd class Assistant Lady Medical Officer.

These papers relate to the application of one Mrs. B. Perriton, M.D., for an appointment in the State Medical Department.

2. She was Lady Apothecary here in 1907-08, when she was given a starting pay of Rs.100, but she subsequently left the service and went to Europe to improve her qualifications. She has since taken the M.D.Degree of Brussels and undergone the courses of studies for the L.R.C.P., L.F.P.S., Degrees of the Edinburgh University. It is stated that she has also done good work, on return from Europe, in developing a Womens' Hospital newly built at Lyallpur in the Central Provinces. She is now drawing Rs.300, with certain easements, under the Indian Womens'. Aid Society and prays for an appointment on Rs. 250 (with free quarters and private practice) in the State Service.

3. In view of the paucity of qualified Lady Medical Officers in the State Service and of the great demand for Lady Medical graduates throughout India, the Senior Surgeon considers it advantageous to secure at once the services of the applicant. He considers that she may be offered a pay of Rs.200 as supernumerary Assistant Lady Medical Officer, 3rd Class.

4. The question was considered by the Council at the Meeting held on the 22nd March 1917 and they are of opinion that she may be appointed supernumerary Assistant Lady Medical Officer on Rs.200 per mensem, and that the appointment should be absorbed in the sanctioned scale on the occurrence of a vacancy. Before issue of formal orders, the Senior Surgeon will be requested to consult Mrs. Perrit on as to her willingness to accept the post on these conditions.

I submit herewith a Final Note by the Extraordinary Member of Council on the subject of appointing one Mrs.B.Perriton,M.D., as third class Assistant Lady Medical Officer (supernumerary) on Rs.200 per mensem, for His Highness' gracious approval.

2. The Senior Surgeon will again be requested to submit proposals in the matter of making adequate arrangements for the recruitment of Lady Medical Officers by offering suitable encouragement to local young lady candidates for undergoing training in medicine, surgery, &c. The question will be worked up and submitted for orders in due course.

To

The Secretary to the Government of
H. H. the Maharaja of Mysore,
General Deptt., Bangalore.

Sir,

In forwarding herewith an application received from Mrs. B. Perriton, M.D., for an appointment in the State Medical Service, I have the honor to invite a kind reference to the correspondence ending with your letter No.9055-Med.126-14-4, dated 17th May 1916, and to state as follows:

R.

2. The Ladies section of the graded Medical service of the State consists of two Lady Medical Officers, three Assistant Lady Medical Officers and one Hony. Assistant Lady Medical Officer. Of these, the senior Lady Medical Officer, Miss.R.Govindarajalu will complete 30 years service by next October and as she is getting rather aged, may apply for voluntary retirement, although she is just 51 years old. Assistant Lady Medical Officer Mrs.Mary J. Whale is on long leave and is not expected to return to duty for some time. Miss.A.G.Allen is trying to secure a Foreign Scholarship on favorable terms and in the event of her securing one, may take long leave and proceed to England. We shall then have in the service only one Lady Medical Officer, Miss.Ayachammal and a

comparatively

comparatively inexperienced Assistant Lady Medical Officer, Mrs Uchgaokar and Hony. Assistant Lady Medical Officer Mrs. Rodgigues who does not possess University qualifications.

3. Under these circumstances I think it will be advantageous to secure the services of the applicant now, especially as Lady Medical Graduates are rarely available and are in great demand in the Indian Womens' Medical Service. I have already submitted to Government that Mrs. Perriton was in our service as Lady Apothecary in 1907-08, when she was given a starting pay of Rs.100, that she subsequently left the service and went to England to improve her qualifications and after her return, was in charge of the Women & Children's Hospital at Lyallpur.

4. As she is already drawing a pay of Rs.300 with certain easements under the Indian Women's Aid Society, she may fairly be offered a pay of Rs.200, as third class Assistant Lady Medical Officer in our service, which pay is only Rs.50/- more than what was offered to Mrs. Mathurabai Uchgaokar, a raw medical graduate, than whom, the applicant may certainly be said to possess more experience.

5. Should the Government be pleased to sanction the proposal, Mrs. Perriton may be regarded as a supernumerary, to be absorbed in due course in a regular vacancy.

I have the honor to be,

Sir,

Your most obedient servant,

For Senior Surgeon.

Sir

I beg to send in this my application for a post in the Mysore Medical Service, under your jurisdiction

I served in the Mysore State as Lady Apothecary at Hassan during the years 1907. 1908 on a Salary of Rs 100 (one hundred) per mensem, I resigned to go to Scotland to further qualify in Medicine I entered the Royal College of Surgeons in 1909 and studied there for the M.D degree of Brussels which I took with distinction I returned to Edinburgh re-entered the College and studied for the LRCP. LRCS. LF.P+S degree. I passed all the professionals and went up for the final examination I could not however finish my degrees, as, owing to financial

difficulties I had to return immediately to India in 1912. Immediately on my return I took up a temporary appointment in the Central Provinces, after five months I was appointed in sole charge of a Zenana Hospital in Lyallpur where my salary was Rs 250 (two hundred and fifty) per mensem free quarters private practice and Provident Fund. I remained here three years and subsequently resigned in order to better my prospects. I was given a post in the Indian Women's Aid Society on a salary of Rs 300 (Three hundred) per mensem plus Rs 50 (fifty) travelling expenses while on tour free quarters and half private practice I am on leave at present but do not desire to continue in my present employment as I am anxious to stay in Bangalore with my Mother who is old, and I also wish to have my Children who are in schools in Simla and Kasauli with me in Bangalore. I am prepared to accept Rs 250. (Two hundred and fifty) with prospects plus free quarters or house rent in lieu, and private practice.

My age is 34½ years.

Dear Mrs Perrilon

I have much pleasure in placing on record what I know regarding your services since you entered the District Boards service about a year ago. taking over an Institution entirely new the first of its kind in this district since when I have every reason to believe that the Women's Hospital has prospered under your professional experience & skill the attendance at the hospital has been from the Commencement good and is increasing and from what I have seen and heard the D.B were fortunate in securing your services.

Your sincerely,

VII Mrs Perrilon M.D has been in Medical Charge of the Female Hospital at Lyallpur for about one year. At the time of her appointment there were no buildings to accommodate female patients excepting a few wards at the Civil Hospital. So that matters were very difficult for her at first. However now that the Hospital has been erected things are going well and the attendance is expanding. Mrs Perrilon has done much useful work in the short time that she has been at Lyallpur and there is every prospect of the usefulness of the Female Hospital expanding under her superintendence. Mrs Perrilon and the work which she represents is fulfilling a long felt and acute want in Lyallpur.

VIII Certified that the Miss Doctor has been serving in the Zenana Hospital Lyallpur during the last 2½ years. She has been a boon to the female sex and with a mature experience at her command she has treated the female cases with the utmost skill and success. Her sympathetic treatment of the patients was a great relief to the sufferers and helped a great deal towards their recovery. At Lyallpur she has added a great deal to her previous experience in the diseases of females & Children. No doubt Lyallpur public will feel sorry at the departure of such an able female Doctor & should wish well on her leaving the place.

Urija District Attock dt 17-5-15.

Dear Madam.

My mother and sister are both suffering from cough & fever for some time past. There are many a doctor and Lady Doctor to be got here, but as they are and all are strange to us therefore they cannot understand our temperament. But it is quite otherwise with you, you are perfectly familiar with us and have treated us well on many a previous occasion at Mehdiabad. Thus we are never satisfied with the treatment of any other doctor, however expert he may be, and have a faith in you, which we never put in anyone else Consequently we have decided to call you here too and though I feel it means some extra trouble to you, yet I hope you will please endure it for my sake. You can leave Lyallpur for Campbellpur Canal etc etc.

Dr Anderson (my maiden name) has been here for upwards of five months. She is a very clever doctor and is a good hand in midwifery. She has attended my wife during her confinement. She is devoted to none in patience and loves her duty. She is of an amiable disposition. She has also for charity treated with notable success half a dozen critical cases of confinement.

IV I have much pleasure in giving a testimonial in favour of Mrs. B. Perrin the Lady Doctor who was in charge of the Female Dispensary at Hassan for the last couple of years. She proved herself a very efficient physician and secured for her the highest popularity from the attention she was ever ready to pay to her patients.

V I have known Mrs. B. Perrilon for about a year. She is in charge of the Female Dispensary at Hassan. She has been working there very hard and very successfully. The Daily attendance has risen from about thirty to over a hundred and twenty now. This is solely due to Mrs Perrilon's great courtesy & care and able and sympathetic treatment to all alike. She is very popular and has a real talent for her profession. These qualities of hers have made her little Dispensary the Chief Medical Institution of the place even eclipsing the District Hospital. She is an acquisition to the Mysore Medical Service which I trust may not lose her by lack of appreciation and suitable support.

As an old Resident of Hassan I am glad to be able to say that Mrs. B. Perrilon has earned an enviable name for her kindness to and treatment of patients. She was equally attentive to rich and poor young and old and to all classes without distinction. Mrs. Perrilon has treated many of our school girls with great success. In her Hassan loses a valuable medical practitioner which it is not easy to replace.

The total number of surgical operations this year was 929 compared with 1262 for the same period last year. The explanation for this drop may be the increasing popularity of the female Hospital.
